

How to spot **Look-A-Like** health care reform proposals that don't solve the problem:

Imitation plans like:

Medicare Extra for All (Center for American Progress)

Medicare-X Choice Act (Sen. Bennett & Kaine)

Choose Medicare Act (Sen. Merkley), and

Healthy America Program (Urban Institute)

- Restrict choice of doctor & hospital.
- Require deductibles & copays for medically necessary care
- Retain inefficient for-profit insurance companies
- Further complicate our complex "system"
- Most fail to cover all Americans

Don't settle for less!

The Medicare for All Act of 2019 is **real** reform that would:

- Guarantee full coverage for **all** Americans
- Allow **freedom** to choose doctors & hospitals
- Eliminate copays and deductibles
- Include prescription drugs, dental, vision, & hearing care
- Remove corporate middlemen from healthcare decisions
- Reduce administrative overhead
- Reduce America's overall healthcare spending

Call your Senators & Representatives and ask them to:

- Cosponsor **HR 1384** and **S.1804** Medicare for All proposals
- Join the **Medicare for All Congressional Caucus**
- US Capitol switchboard - **202-224-3121**

Stay up to date – there will soon be House Committee Hearings!
